Our BRC customers

Wanis International Food Specialists

Wanis is one of the UK's largest specialist food and drink distributors. Based in a 120,000 sq ft depot in East London, Beaver Pest Control is responsible for keeping Wanis pest free.

Soulful Foods

"stupidly scrumptious and brimming with generous portions of meat and veg."

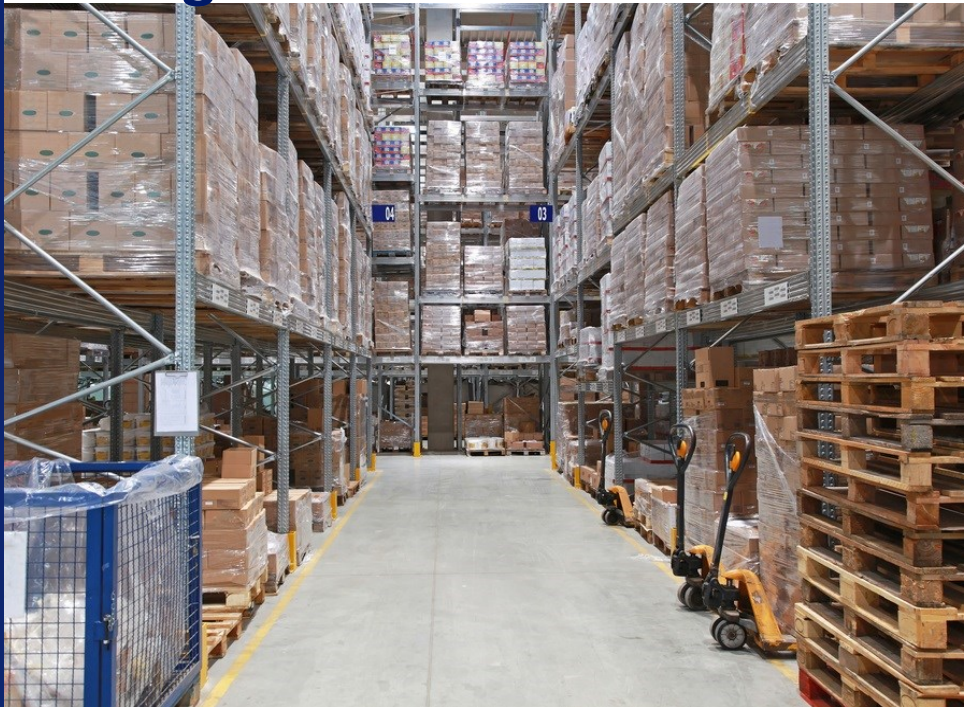

Corner Magazine 2014.

Soulful Foods have provided simple, hand-made, wholesome food since 1999.

HBH Meats

Are an independently owned family run business providing fresh halal products to the people of London.

Storage & Distribution Centres

Continual innovation.....

is an important part of managing pest issues within Food Processing Plants and Storage & Distribution centres. Our partnerships with manufacturers and continual professional development ensures we, and our customers, are at the forefront of new technology designed to control pests using the most efficient, sustainable methods.

Your premises can benefit from working with the newest Moth Pheromone Disrupters. Synthetic chemicals have been developed based on the specific sex pheromone which the female of each species uses to lure males for mating. The direct management of insect pests using these synthetic pheromones gives excellent suppression of populations.

Kill-@lert is a highly efficient rodent control system which uses radio frequencies to send data from electronic rodent traps to your computer, tablet or mobile device. The system uses an online control centre to send notifications, display kill history and enable you to download system data.

Specialist fly control units with 360° attraction and a 180m² coverage are ideal for commercial food and distribution centres.

As part of your service, graphical trending is provided including catch reports and species analysis.

You can trust us to provide

Royal Society of Public Health accredited and trained technicians.

CSCS registered technicians.

Recommendations on the most cost effective way to manage your pest prevention long term with a pro-active comprehensive pest monitoring contract.

Pro-active contracts include

- ⇒ Six monthly Independent Field Biologist visits.
- ⇒ Identification of the source of the problem.
- ⇒ Proofing recommendations every visit.
- ⇒ Hygiene recommendations every visit.
- ⇒ Information on how to reduce re-occurrences.
- ⇒ A fully compliant report book.
- ⇒ Access to our on-line system for reports.
- ⇒ Appropriate treatment if there are pest problems.

Work with Beaver Pest Control for

Peace of mind

Regular scheduled visits means that you can be confident we will pick up and deal with pests according to BRC guidelines.

Maximum value

We are so confident about our service that we offer free call outs in addition to our standard 12 visits per annum contract.

Food Processing Plants

Service levels that comply with BRC audits

We will work with you to identify the correct integrated pest management programme to produce a safe and legal environment for the production of your food products. The specification will clearly reflect the activities on site and inspections are carried out by RSPH level 2 qualified pest controllers with specific training in BRC requirements.

We support you in drawing up the formal agreements which clearly define the expectations for the service levels.

The specialist proofing team can help you make sure your building minimises the potential for contamination such as the elimination of bird roosting sites and the screening of ventilation areas. Monthly inspections include suspended ceilings and voids unless they are fully sealed.

As full members of the British Pest Control Association we have the back-up of specialist technical knowledge if required.

The on-site documentation fully complies with BRC requirements including numbered site bait plans, bait station markers on walls, clearly defined responsibilities and details of all products used with manufactures safety data sheets. Missing bait boxes are recorded and investigated.

The results of the pest control inspections are uploaded onto a bespoke online reporting system which provides detailed trend reporting.

When you are ready to review your contact or if you are not happy with your current provider contact us for expert advice and a no obligation survey.

About Beaver Pest Control

Established in 1990, Beaver Pest Control LLP has expanded to become one of the largest specialist pest control companies in the UK. With 25 technicians covering London and the South on a daily basis we are always ready to respond to you.

We focus on innovative pest control, education and preventative programs, and believe prevention is critical for long term pest prevention.

If you already have a problem, we can help you eradicate it, and then prevent it re-occurring.

We cover a full range of pests including two specialists teams to deal with bird and fox problems.

To keep our service levels high , we are one of the very few pest control companies with performance related pay which ensures our technicians clear your problem efficiently. This means you pay competitive prices for great work.

Helping you keep your food environment
healthy and safe.

Why work with us ?

Peace of mind.

Regular visits mean that you can be confident we will pick up and deal with pests before they become a problem which **protects the health** your employees, and **prevents** contamination to food areas & **damage** to buildings.

Expert staff you can trust.

CSCS registered Beaver technicians undergo 5 weeks intensive in-house training + are independently tested to British Pest Control Association level 2.

Confidence in your supply chain.

Eliminate risk of closure and **damage to reputation**. Our on-site Report Folder records findings and recommendations for housekeeping and proofing. The folder also contains details of pesticides which will cover you under the Control of Substances Hazardous to Health (COSHH) Regulations. We hold **Safecontractor, CHAS & ISO 9001:2008** accreditations.

Efficient convenient one stop shop.

A full range of pests covered including two specialist teams to deal with bird and fox issues.

Maximum value.

We are so confident about our service that we offer four free call outs on our standard 12 visits per annum contracts.
